Data set specification (Appendix C)

We intend to provide the following data set/s for the EuroSDR/ISPRS-Test 'Pattern Recognition in Remote Sensing'

Please use one form for each type of data set, possibly containing several data sets.

1. Sensor, platform

2. Ground sampling distance / spatial resolution

3. Approximate size of area

4. Number of channels

5. Approximate size of images in pixels

6. Number of classes

7. Geographic area / Study site (e.g., urban, forested land, agro-ecosystem, …)

8. Number of data sets of this type to be made available

Person in charge
